

Making VectorWorks

WORK FOR YOU for version 10

 improbability™ press & Nemetschek NA

Invite you to three 1-day seminars + a specialty half day

for both new and experienced users

presented by Janis Kent, AIA, author, president Improbability™ Press

Day 4 - presented by Dan Jansenson

Hold these dates!

more cities to follow

Los Angeles, CA

September 17, 18, 19, 20 - pre-register by 9/9

Prepaid registration is \$275 for 1 day; \$495 for 2 days; and for all 3 days, \$745

Day 4 is \$190 for prepaid registration

→ **register 35 or more days in advance and save \$25 per day; \$15 for Day 4**

Day 1 **The Foundations of VectorWorks**

Unlock the secrets of making VectorWorks a more efficient tool and you a more productive user. Learn what everyone should know about working within the overall **environment** of VectorWorks. Understand the different types of objects you can draw, how to work with the smartcursor, Preference settings, Constraints palette, and many other items.

Day 2 **Beyond the Foundations**

Become a more proficient user with an intensive look at the capabilities of VectorWorks. Use this seminar to enhance your ability to create and modify objects and then master techniques for object and drawing **organization**. Understand how classes and layers really work, how to set up workgroup referencing, how to begin with worksheets, creating custom scripts, and setting up office standards.

Day 3 **Even Further Beyond**

Delve into the third dimension within VectorWorks and learn how to create, modify, and view 3D objects. Understand the ins and outs of the different types of **3D objects**—primitives, solids, boolean, meshes, hybrids, and plug-ins. Learn to use the new features of the Resource Browser and then once it is all there, how to set up multi-view documents.

Day 4 **Rendering in VectorWorks**

Now that you have a project, how do you present it. Use this half-day seminar to learn practical methods to create **presentations** that enhance your project using RenderWorks. Understand differences between shaders and textures and how to create effects with lighting. And finally, go through examples of rendering typical elements from your drawing.

RSVP & more information call 310-470-3318 or visit our web page at <http://www.improbability.com>
Improbability Press, 369 S. Doheny Drive Ste 189, Beverly Hills, CA 90211

Please note, seminars are presented in lecture format, but you are welcome to bring your own laptop.

to register – mail this form or fax it to 310-470-3809
