

CONTENTS

CHAPTER 1

WHAT THIS IS ALL ABOUT	29
INTRODUCTION	29
Terminology	30
MACINTOSH AND WINDOWS	32
CONVENTIONS USED IN THIS MANUAL	33
Command Menu Title	34
Submenus, Dialog Boxes, And Other Stuff	34
Convention Example	35
PRESS/DRAG OR CLICK/CLICK	35
OBJECTS AND VIEWS	35
OTHER STUFF	36

CHAPTER 2

GETTING STARTED	37
WHAT'S ON THE SCREEN	37
SCALE	38
Scale Options	39
Paper Scale	39
Enlargement	40
All Layers	40
Scale Text	40
SET GRID	41
Snap Grid	41
Reference Grid	43
Grid Angle	44
UNITS	45
Dual Dimensioning	45
Unit Type	46
Unit Style	48
Angular Precision	50
Internal Accuracy	50

PRINT AREA	51
Pages	51
Printable Area	52
Tiling Drawings	53
FOR PRINTERS	54
FOR PLOTTERS	55
MORE ON PLOTTERS	55
Key Items In Large Format Output	56
Printing Directly To A Large Format Printer	56
Margins	58
Color And Grays	58
TEMPLATE FILES	59

CHAPTER 3

SETTING UP DRAWING PARAMETERS 61

CHOOSING PREFERENCES	61
VECTORWORKS PREFERENCES	61
Edit	62
Display	71
Session	76
3D	79
DOCUMENT PREFERENCES	82
Display	83
Dimensions	85
Line Render	92
Raster Render	93

CHAPTER 4

SHARPENING YOUR PENCIL 97

WHAT IS AN ATTRIBUTE	97
Applying Attributes	97
SOLID LINES	98
Line Thickness Defaults	98
Applying Line Weights	99
Custom Line Thickness	99
DASHED LINES	100
Line Style Default	100
Applying Dash Styles	100

Custom Dash Styles	100
Dash Styles In 3D	103
MISCELLANEOUS LINES	104
Class Thickness And Class Dash Style	104
Invisible Lines	105
Dimension Line Without Witness Lines	106
COLORS	106
Color Default	106
Applying Colors	109
Working With Custom Colors	110
Editing The Color Palette	110
Color With 3D Objects	115
PATTERNS	115
Pattern Default	116
Applying Patterns	116
Custom Patterns	117
Patterns With 3D Objects	117
HATCHES	118
Default Hatch	118
Applying Hatches	118
Custom Hatches	120
Hatches And The Resources Palette	126
MARKERS	127
Defaults And Applying Arrows	127
Marker Class Style	128
Custom Arrows	128
2D OBJECTTYPES	129
Polygon And Polyline Objects	129
Non-Polygon Objects	130
Other Non-Polygon Objects	130
3D OBJECTTYPES	135
VectorWorks Native Objects	135
3D Solids Objects	135
Mesh Objects	135
Boolean Objects	136
Plug-In, Hybrid, And Other 3D ObjectTypes	136
VERTEXTYPES	137
Corner Vertex	137
Bezier Vertex	137
Cubic Spline Vertex	137
Arc Vertex	138
2D AND 3D CONSTRAINTS	138
2D Constraints	139
3D Constraints	149

CHAPTER 5

DRAWING AND CREATING OBJECTS 151

ACTUALLY DRAWING	151
Press/Drag	151
Data Display Bar Dimensioning	151
Dialog Box	152
Other Creation Methods	154
LINES	154
Single Line Tool	155
Double Line Tool	156
Leader Line	161
DIMENSIONING	162
Linear Dimensions	162
Angular Dimensions	165
Circular Dimensions	167
SQUARES AND RECTANGLES	171
Rectangle Tool	171
Rounded Rectangle Tool	172
Rotated Rectangle Tool	174
CIRCLES AND ELLIPSES	175
Ellipse By Box	176
Circle By Radius	176
Circle By Diameter	177
Circle By Three Points	177
ARCS AND SEMICIRCLES	177
Arc Tool	177
Quarter Arc Tool	180
Arc Commands	181
POLYLINES AND POLYGONS	181
Polyline	182
Polygons	184
Freehand Tool	188
Convert To Polygons	188
Convert To 3D Polygons	188
MAKING COPIES	189
Clipboard Copying	190
Duplicates Along A Path	191
Duplicating Symbols	194
Creating Concentric And Parallel Duplicates	194
Creating Duplicates With Dialog Boxes	195
Duplicates Into Lines Or Polygons	198
Creating Mirrored Duplicates	200

CHAPTER 6

CREATING 3-DIMENSIONAL ELEMENTS 203

3-DIMENSIONAL OBJECTS	203
CREATING 3D OBJECTS OUT OF 2D	203
Extrude Command	203
Other Height Extrusions	204
Multiple Extrude	204
Sweep Command	209
3-Dimensional Mirror Duplication	215
BUILDINGTOOLS AND COMMANDS	216
Walls	216
Floors	232
Roofs	237
Surface Shapes	243
Plug-In Objects In General	243
Stairs	245
Columns	253
Doors And Windows	254
Cabinetry And Furniture	260
OTHER USES FOR 3DTOOLS AND COMMANDS	263
Wall Tool - Other Uses	263
Roof Face Command - Other Uses	264
Floor Command - Other Uses	264

CHAPTER 7

ERASING AND MODIFYING OBJECTS 265

MODIFYING OBJECTS	265
ERASING OBJECTS	265
Erasing The Last Mistake	265
OBJECT INFO PALETTE	266
Shape Pane	266
COMBINING AND CUTTING 2D OBJECTS	275
Trim Command	275
Trim Tool	276
Add Surface Command	276
Combine Into Surface Command	277
Intersect Surface Command	278
Clip Surface Command	278
Clipping Tool	279
Fillets And Chamfers	280

Contents

2D RESHAPE TOOL	281
Double Line Reshaping	281
Non-Polygon Reshaping	281
Line Reshaping	282
Hatch And Pattern Reshaping	282
Wall Reshaping	282
Marquee - Multiple Reshape	283
2D Reshape Tool Modifier Icons	283
COMBINING OBJECTS	288
Joining Individual Lines	288
Extending Open Objects	289
ROUNDED RECTANGLE MODIFICATION	289
WALL MODIFICATION	290
Reshaping Walls	290
Peaked Or Gable Walls	291
Walls For A Barrel Vault Ceiling	292
ROOF MODIFICATION	293
Roof Object And Dormers	293
Roof Object And Skylights	296
SIZING OBJECTS	297
Resizing Objects	297
Resize Tool	298
Scaling Objects	298
Resizing The Whole Page	299
MIRRORING AND ROTATING 2D OBJECTS	299
Mirror Tool	299
Flip Commands	299
Rotate Commands	300
Rotate Selection Tool	300
Rotated Or Mirrored Text	300
MIRRORING AND ROTATING 3D OBJECTS	301
3D Mirror Tool	301
Rotate 3D Object Command	301
3D Rotate Tool	302
MODIFYING THE 3D ENVIRONMENT	302
Working Plane	303
Set Working Plane Tool	303
Align Plane Tool	304
RESHAPING 3D OBJECTS	304
Modifying Planes	305
Converting To Mesh	305
3D Reshape Tool	305
Plug-In Objects	306

SEARCH AND CHANGE LINE WEIGHTS 306
 Setting Up A Search Criteria 307
 Saving A Search Criteria 308
 Some Other Things About A Search Criteria 308
 REVISION CLOUDTOOL 310

CHAPTER 8

ORGANIZING OBJECTS 311
 AN OBJECT OR A GROUP 311
 Creating Grouped Objects 311
 Changing Grouped Objects 312
 Ungrouping Objects 313
 Converting To Group 313
 WHY SYMBOLS 315
 Scale Of Symbols 315
 Creating Symbols 316
 Editing Symbols 319
 Revising Symbol Insertions 321
 Using Symbols 323
 Setting Up Symbol Scripts 325
 Symbols In Walls 326
 Placing A Texture Of Symbols 328
 Organizing Symbols 329
 Attaching Records 329
 Renaming And Deleting Symbols 330
 Locating And Importing Symbols 330
 Modifying Instances Of Symbols 335
 STACKING ORDER WITHIN LAYERS 337
 REFERENCING WITH THE LOCUSTOOL 337
 CONVERTING TO VECTOR OBJECTS 338

CHAPTER 9

ORGANIZING THE DRAWING 341

PENCIL AND ERASER OR COMPUTER	341
LAYERS	342
When To Use Layers	342
Layers In General	344
Working With Layers	345
Creating Layers	345
Working Across Layers	353
CLASSES FOR MORE ORGANIZATION	354
Classes In General	354
Default Classes	355
Creating, Modifying, And Customizing Classes	356
Visibility Of Classes	360
Working Across Classes	361
Working With Classes	361
LINKING AND CONNECTING LAYERS	363
Creating Linked Layers	364
Re-Linking Individual Linked Layers	365
Rendering Linked Layers	365
Duplicating Linked Layer Objects	366
Multi-Views	366
LOCKING OBJECTS	368
Locked Guides	368
SETTING UP CUSTOM VISIBILITIES	369
Creating Custom Visibilities	369
Accessing Custom Visibilities	371
Editing Custom Visibilities	372
Using Custom Visibility Scripts	373
WORKSPACE EDITOR	373
Creating A Custom Workspace	374

CHAPTER 10

WORKING WITH THE DRAWING 379

LOOKING AT YOUR DRAWING	379
Zoom-In Tool	379
Zoom-Out Tool	379
ViewBar Zoom Icons	379
Normal Scale	380
Fit To Window	380

Fit To Objects	380
Use Full Screen	381
Previous And Next Views	381
MOVING AROUND IN THE DRAWING	381
THE ORIGIN	382
Setting The Origin	383
RELOCATING OBJECTS	384
Moving Objects Specific Distances	384
Nudging Objects A Small Distance	385
Moving Objects To Specific Coordinates	386
Aligning Objects	386
RELOCATING ALL OBJECTS	387
VIEWS AND SOME OTHER THINGS	388
Views	389
Projections	390
Renderings	391
Custom Views	394
CREATING SECTIONS	398
Cut 2D Section	398
Cut 3D Section	399
CONVERTING TO LINES OR POLYGONS	400
Converting To Lines	400
Converting To Polygons	401
MOVING AROUND IN THE 3D WORLD	402
Rotate View Tool	402
Flyover Tool	403
Walkthrough Tool	403
Translate View	405
Rotate 3D View	405
AREA AND PERIMETER TAKEOFFS	405
Object Info Palette	406
Perimeter Takeoffs	406
Area Takeoffs With A Worksheet	406
WALL FRAMER	410
Framing Preferences	411
Wall Framer Worksheets	412
PRODUCTIVITY TOOLS AND COMMANDS	414
Date And File Name Stamp Commands	414
Break Line Command	416
Section Line	416
Spiral Command	417
Grid Creator Command	417
Markers	418
ID Tools	419

PURGING UNUSED ITEMS 421
 EXPORTING TO OTHER CAD PLATFORMS 422
 IMPORTING FROM OTHER PLATFORMS 425
 LOCKING A FILE – SORT OF 425

CHAPTER 11

RENDERING, 3D, AND ANIMATION 427
 ADVANCED 3D 427
 When Should I Use These Formats 427
 Working With 3D Polygons 428
 Working With Mesh Objects 430
 WHAT IS QUICKDRAW 3D 431
 What Do I Need To Know About QD3D 431
 Shadows In Renderings 431
 QD3D Preferences 432
 UNDERSTANDING LIGHTING 432
 Directional Light 432
 Point Light 433
 Spot light 433
 LIGHTING OBJECTS OR SCENES 433
 Ambient Light 433
 Set Sun Position 434
 Light Creation Tool 435
 Create Light Dialog Box 435
 Mode Bar 441
 Light Source Objects 442
 RENDERWORKS 442
 Locating Textures 443
 Applying Textures 443
 SOLID MODELING OR BOOLEAN OPERATIONS 443
 3D Object Types 444
 Solids Modeling Commands 444
 Editing A 3D Solid Model 446
 WHAT IS ANIMATION 446
 Orbit Point Animation 447
 Saving Animations 449
 Saving Movies 452
 Viewing Animations 452
 Move Along A Path Animation 452
 ADVANCED ANIMATION TOOLS 455
 Velocity Bead Options 456
 Moving Vertical Time Markers 458

CHAPTER 12

3D PRESENTATION TECHNIQUES	459
INTRODUCTION	459
MODELING THE SCENE	459
Basic Premise – Creating A Stage Set	460
SETTING UP THE LIGHTING	471
Primary Light	472
Fill Light	472
Accent Light	474
Lighting In RenderWorks	474
Lighting In Art•lantis	479
RENDERING	481
Preparing To Render In RenderWorks	482
Rendering In Art•lantis	483
CREATING IMAGE FILES	484
How Many Pixels	484
Using Screenshots	486
Using Print2Pict	487
USING COMPUTERS FOR PRESENTATIONS	487
HTML Files – Internet And Disc-Based	487
Creating The Drawings	488
Creating An HTML File Or Web Page	490
Publishing On The Internet	490
Publishing In CD-ROM Format	491
Other Uses For Internet Web Pages	491
VR PANORAMAS	493
VR Panoramas With Vectorworks	493
VR Panoramas With Art•lantis	495
PRESENTATION IN SUMMARY	496
ART•LANTIS – A LAST MINUTE UPDATE	496
Better Lighting Controls	497
Chronologically Accurate Sun Light	497
Solar Animation	497
Expanded Shader Capability	497
Improvements In Preview Images	498
Increased Number Of Shaders	498

CHAPTER 13

USING WORKSHEETS	499
INTRODUCTION	499
WHAT'S NEW IN VECTORWORKS	499
Worksheet Entry Palette	499
New Worksheet Functions	499
Workgroup Referencing	500
Multiple Undo/Redo	500
WHAT IS A WORKSHEET	501
Worksheet States Of Activity	501
WORKSHEETS IN GENERAL	503
Spreadsheet Rows	504
Database Rows	504
FORMATING WORKSHEETS	506
Numerical Format	506
Alignment	508
Borders	508
Modifying Column Widths	508
Preferences	509
Row Height	509
Text	509
Altering The Size Of The Worksheet	510
Moving Or Duplicating Groups Of Cells	510
NAVIGATING SHORTCUTS	511
ENTERING TEXT AND FORMULAS	512
Text	512
Formulas Within The Worksheet	512
Formulas Operating On Objects	514
RECORD FORMATS	517
Creating Record Formats	518
Attaching Or Detaching Records To Objects	520
LINKED TEXT	520
Creating A Symbol For Linked Text	520
GENERAL USES FOR WORKSHEETS	523
Spreadsheet	523
Area Or Quantity Calculations	523
Storing Of Data Or Information	524
Production Of Schedules And Tables	524
Database Rows Without A Record Format	524
Database Rows With A Record Format	525
Dynamic Text	526

LINKED WORKSHEETS 526
 A Tip – Referencing Resources Only 527
 Linking Syntax 528
 DATABASE ROWS – THE DETAIL 529
 Manual Entry Of Formulas 529
 Automatic Report Commands 534
 WORKSHEET APPLICATIONS AND IDEAS 538
 Area Take-Offs 538
 Volume and Surface Area Take-Offs 538
 Landscape Design 539
 Facilities Management 539
 Exhibits And Displays 539
 Mechanical Engineering 540
 Urban Planning 540
 Merchandising Analysis 540

CHAPTER 14

ENGINEERING AND MORE 541
 INTRODUCTION 541
 MECHANICAL ENGINEERING DRAWING 541
 Drawing Forms And Title Block 541
 Notes And Details 543
 DIMENSIONING AND TOLERANCES 548
 Creating A Feature Control Frame 548
 Inserting A Datum Feature Symbol 549
 Inserting A Datum Target Symbol 550
 GD&T Tips And Hints 550
 CREATING ENGINEERING OBJECTS 550
 Keyways 551
 Holes 552
 Slots 553
 Spirals 553
 Structural Shapes And Tubing 553
 BEARINGS, SPRINGS, AND OTHER OBJECTS 555
 Bearings 555
 Retaining Rings 557
 Springs 558
 Spur Gears 561

Contents

FASTENERS AND HARDWARE	561
Washers	561
Nuts	562
Screws And Bolts	564
Pins	567
Rivets	569
ENGINEERING SYMBOLS	570
Piping	570
Welding	570
Electrical	570
WORKING WITH OBJECTS	571
Hatches	571
Drafting Designators	572
HVAC	576

CHAPTER 15

DRAWING AND THE PERFORMING ARTS 577

INTRODUCTION	577
THEATRICAL LIGHTING WORKSPACE	577
Getting Started	578
Define The Workspace	579
Converting Existing Files	579
OVERVIEW OF SCENIC CAPABILITIES	580
Theatrical Lighting Template	581
Drafting Command Menu Title	582
Scenic Objects Palette	583
Scenic Symbols	585
Other Scenic Design Capabilities	585
OVERVIEW OF LIGHTING CAPABILITIES	593
The Initial Setup	593
The Setup Label Sheet	593
Drafting Or Importing Ground Plans	595
Drafting The Light Plot	596
Light Plot Tools Palette	602
Theatrical Lighting Commands	607
Importing And Exporting Light Plots	618

CHAPTER 16

LANDSCAPE AND TERRAINS	619
OVERVIEW	619
SITE DESIGN	619
Property Lines	619
Parking Space Tool	622
Landscape Symbols And Records	624
WORKSHEETS AND THE LANDSCAPE PLAN	628
Plant Lists And Cost Estimating	628
Landscape Area Costs	629
PRESENTATION GRAPHICS	632
Graphic Plants And Landscape Symbols	632
Color Tips	633
DIGITAL TERRAIN MODELER (DTM)	634
How It Works	635
How To Create A DTM	635
Cut And Fill DTM	644
Other DTM Commands	645
Miscellaneous Tips For 3D Terrain Models	651

CHAPTER 17

SOME OTHER THINGS	655
SOME MORE STUFF	655
WORKGROUP REFERENCING	655
Typical Uses For Workgroup References	656
Basic Workgroup Referencing	656
What Is In A Name	659
Using Workgroup Referencing	661
Signed, Sealed, And Delivered	662
Conclusion	665
PLUG-IN MODIFICATION	666
VOLUME AND SURFACE AREA CALCULATIONS	667
ONE LAST ITEM – KEYBOARD SHORTCUTS	668

INDEX	669
--------------------	------------
